

# The Church of Christ at Mission Viejo

Presents

## OUR GOD IS AN AWESOME GOD!

### Revival 2012

#### A Family Event

#### March 2 – 4

Join us March 2<sup>nd</sup> – 4<sup>th</sup> as we explore important topics and tough questions that both believers and skeptics ask. What is true, how do you know, and what evidence is there, if any, to believe? Dr. Brad Harrub's powerful presentations will peel back the curtain of pseudo-science and challenge your worldview. The weekend is designed for the whole family and it's absolutely FREE!

Special Guest Performance  
from Pepperdine University

Featuring  
Guest Speaker:  
Brad Harrub,  
Ph.D.

Staffed Nursery  
& Children's  
Classes offered!  
"Science & the  
Bible" for Kids!

## Just For Kids!

### Science and the Bible for Elementary Students

Students in Kindergarten to 4<sup>th</sup> grade are welcome to discover Bible truths and exciting science. We will spend time making a few science projects and relating them to Scripture. What truth is in a diet soda, candy and a car? Has science changed or has God?

### Pre-Schoolers Discover Science

Two-years old to four years olds will enjoy their play discovery time as they experiment with bubbles, snow, and items that sink or float? And other scientific laws that God has created. Allow your children to join us to discover that God is AWESOME!

### Nursery

A staffed nursery is available for babies to 23 months.

**For Children's Programs and meals**, we would be delighted if you are able to **RSVP** to help us prepare for adequate staff and supplies. You may register on-line or call the Church Office. Thank You!
